

ONLINE 2021 BUSINESS MATCHING

โครงการส่งเสริมการค้าออนไลน์ด้วยการเจรจาธุรกิจ

Online Business Matching : OBM ปีงบประมาณ 2564

ภายใต้โครงการส่งเสริมการตลาดและยกระดับผลิตภัณฑ์ชุมชนเชิงสร้างสรรค์อย่างยั่งยืน

โดย สำนักงานพาณิชย์จังหวัดพิษณุโลก

Abstract

Nowadays, empowering the community is an important foundation for the development of the country, and one of the important roles of the Ministry of Commerce is enhancing the local economy to global market. Phitsanulok Provincial Commercial Affairs therefore carried out various projects by focusing on empowering locals, resolving the problems of the people's living, redistribute income to communities thereby reducing poverty inequality in the region, strengthening the economy from within the country resulting in thorough and sustainable growth of the community. Phitsanulok Provincial Commercial Affairs also helps develop farmers to become agricultural entrepreneurs, helps maintain reasonable and stable agricultural prices, solves the problems of prices fall especially in the situation of the Covid-19 pandemic that has affected the economy and trade around the world. Moreover, the Provincial Commercial Affairs of Phitsanulok helps promoting the use of electronic commerce both domestically and internationally to enable local enterprise, cooperatives, and SMEs entrepreneurs to have the potential to be able to compete in ASEAN and in the global market which creates a balance for Thai economy by developing the local economy to grow together and make a link to the international trade economy. These are the main reasons for the project of "Online Business Matching", which is one of the projects to promote the border trade in the northern provinces which will create opportunities to connect the community markets and potential products of Phitsanulok Province. This project will create a link for purchasing of goods and services both domestic and international and expand the economic base in the North along with promoting and developing the driving force of the northern border economy to grow and sustain, and it will continue to affect the stimulation and recovery of the domestic economy according to government policy.

In this regard, I would like to send my best wishes to the executives, government officials and all officers, together with entrepreneurs in Phitsanulok Province to have a great success in participating in the project of "Online Business Matching" according to the online trade promotion project by Negotiating Online Business Matching: OBM (fiscal year of 2021) and achieve the best possible benefit for social and economic development of Thailand. and neighboring countries continuously.

Kwanjai Cricket Farm was started in 2015 to raise the edible insect farm (Cricket) at 174/2 Moo 7 Keangsopha, Wangthong, Phitsanulok Province, Thailand. After that, we has expanded together with partner farms across Thailand more than 250 farms to sell to the food factory. Our farm is a model of edible insect farms to receive the Good Agricultural Practices (GAP) standard in July 2018

In December 2018, Lan Farm Hug Company Limited was and established to build a factory with Thai FDA, GMP and GHP/HACCP Codex standards. We have raised the standard of edible insects until they can be sold to Modern Trade (Lotus's, Makro, Tops and BigC) more than 500 branches throughout Thailand and Cambodia including selling through agents to USA and Australia until now the only one in Thailand.

We have a big vision to be a part of environmental sustainability. "Edible Insects" that we can feed such as crickets, silkworms, etc. Use less water, less insect food. Takes time to feed faster and emit less methane than many animal proteins. Especially these insects, we can eat the whole body. The waste from farming can be used to make organio fertilizers. It is one of the world's ciroualr economy.
